Welcome to our 50th Meeting

I am delighted to welcome all of you to the 50th Deans Business Club meeting. The past 49 meetings have been a roller coaster ride of grit and determination to bring a new and fresh approach to business networking meetings. For those of you that are joining us for the first time today you are helping us to achieve another milestone in our history.

Since the Club was formed only one meeting failed to attract a new member. I am delighted to confirm today that we have been joined by new members at each and every meeting for,

2 years.

This is only possible as a result of you, the membership spreading the word about our club (and a little bit of work by Paul).

How the Club was formed

Deans business club was created in October 2008 by its founding member Paul Yates-Smith in order to support local business in and around the Deans' area of Brighton. At that time there was no local authority business support or recognition for these suburban areas of Brighton and yet so many residents ran businesses from home? It was almost as if the area had been forgotten.

News soon spread and the club held its inaugural meeting at the Whitecliffs Cafe in Saltdean when over 30 local businesses attended. Followed soon after by an event titled "Women in Business" another success, just one week before Christmas.

Since those early days & with limited resources, attendance has grown steadily to the levels we see today. Businesses have successfully been attracted from central Brighton and all over Sussex to our meetings, delivering the core objectives on which the club was built.

Deans Business Club is not a group that provides Networking meetings for the sake of networking. Neither is it a high pressure lead generating group.

Looking for work space to suit your needs?
